About the Asian Development Bank

ADB is committed to achieving a prosperous, inclusive, resilient, and sustainable Asia and the Pacific, while sustaining its efforts to eradicate extreme poverty. Established in 1966, it is owned by 68 members —49 from the region. Its main instruments for helping its developing member countries are policy dialogue, loans, equity investments, guarantees, grants, and technical assistance.

About the Agence Française de Développement Group

The Agence Française de Développement Group (AFD Group) implements France's policy in the areas of development and international solidarity. It finances, supports and accelerates transitions towards a more coherent and resilient world. Comprised of AFD, which finances the public sector and NGOs, Proparco, which finances the private sector, and soon, Expertise France which proposes technical expertise and cooperation, the AFD Group supports, a vision relying on five foundational commitments that underpin all actions: 100% Paris Agreement, 100% social link, 3D development thinking, non-sovereign first and partnership design.

With our partners, we are building shared solutions with and for the people of the Global South. Our teams are active in more than 4,000 projects in the field – in overseas France, in some 115 countries and in crisis/conflicts areas - working to promote the “common goods” that are climate, biodiversity, peace, gender equality, education and health. It is our way of contributing to the commitment that France and the French people have made to achieve the Sustainable Development Goals. Towards a world in common.

Shared Vision and Ambition

The Asian Development Bank (ADB) and the Agence Française de Développement (AFD) Group have cofinanced over 70 projects amounting to \$¹13.8 billion. Since our first cofinancing initiative in Viet Nam in 1997, we have grounded our partnership on our shared vision of development that allows us to set greater ambitions.

In 2003, we formalized our partnership with a Memorandum of Understanding that reflected our common desire to achieve concrete results. In 2010, our partnership reached new heights with our first three-year Partnership Framework Agreement (PFA) for 2010–2013, followed by a Framework Cofinancing Agreement for 2013–2016. In 2016, we renewed our commitment to a stronger partnership with a new PFA for 2016–2022, where we targeted a more ambitious cofinancing of \$1.5 billion each for the next 3 years. We included tangible collaboration objectives on some major themes: urban transport, sustainable cities, climate change, air pollution, and social protection. In February 2019, we amended the PFA to adopt higher cofinancing targets of \$2.5 billion each for 2019–2022. Since 2010 to date, ADB and AFD have achieved \$7.9 billion and \$3.4 billion in project financing, respectively.

Beyond project cofinancing, we

- discuss respective strategies and collaboration opportunities at annual high-level meetings
- manage several regional facilities to finance project feasibility studies with a view to future cofinancing, e.g., Cities Development Initiative for Asia, ASEAN Catalytic Green Finance Facility
- engage in personnel exchanges through secondment arrangements

¹ \$ refers to US dollar.

Notable Projects

PAKISTAN
Peshawar Sustainable Bus Rapid Transit Corridor Project

Project cost:
\$589.4 million

AFD: **\$150 million**
ADB: **\$335 million**
